📍 Berlin, Germany

ABOUT ME

I'm an interdisciplinary product designer focused on AI-native products. I led UX/UI and interaction design on research projects at an AI research lab, working side by side with ML researchers and engineers. Today I design and build AI-native products end to end: from the use case and the AI's behaviour to the shipped interface.

EDUCATION

Master 2016 - 2018

HAWK -

University of Applied Sciences and Arts

Interaction Design/Advertising Design

Bachelor 2009 - 2013

Guangdong University of Foreign Studies

Visual Communication Design

SKILLS

- AI-Native Product Design
- AI Behaviour & Prompt Design
- UX/UI & Interaction Design
- User Research & Testing

EXPERIENCE

**Distributed Artificial Intelligence
Laboratory of TU Berlin**

Senior Product Designer

| April 2018 - 2025

I independently led UX/UI and interaction design on research projects, in close collaboration with ML researchers and engineers.

- Cosy (UX for AI Threat Prediction)
- BePrepared (E-Health/App)
- lebenpflegedigital (E-Health/App/VR)
- BeIntelli (Autonomous Driving/MR)
- Ubiact (IoT/Smart Ring/AR)

Mirror - AI Reflection Journal

Founder & Product Designer

| 2026 - present

Solo-built LLM reflection app: use case, AI behaviour design, model evaluation, interface, closed beta. Built end to end with AI-assisted development.

PROFESSIONAL DEVELOPMENT

McKinsey Forward Program

- Certificate of Completion

| 2024

Structured problem-solving, agile teamwork, and business strategy.

**Centre of Scientific Continuing
Education and Cooperation (ZEWK)**

| 2018 - 2023

Project leadership, communication, and hybrid project management trainings.

AWARD

**DAAD Prize - German Academic
Exchange Service**

| 2017

For outstanding academic achievement and social/cultural engagement.
